ABOUT US

ACPRO Transport offers a comprehensive, technology-driven logistics solution backed by regional expertise, a modern fleet, and a commitment to excellence. We provide reliable, safe, and efficient transportation services across Southern Africa, ensuring your cargo reaches its destination securely and on time.

ACPRO Transport is committed to delivering top-tier transportation and logistics solutions across Southern Africa.

With years of industry expertise since 2009, we have a deep knowledge of the dynamic logistics sector. Based in Kempton Park, Gauteng, South Africa, our fleet consists of state-of-the-art Volvo heavy-duty trucks ensuring we cater to the unique needs of our diverse clients.

Our facilities feature:

✔ A modern workshop
✔ An administrative office
✔ Bulk underground diesel storage
✔ A secure parking area

We maintain strict maintenance schedules, with each truck serviced by Volvo every 50,000 km under a dedicated maintenance plan. This ensures reliable, safe, and on-time deliveries for every order.

At ACPRO Transport, efficiency, safety, and customer satisfaction drive everything we do.

Each driver is intensely evaluated and tested on his driving skills and re-evaluated on a regular basis. Our staff is one of our most precious assets and we pay a lot of attention to their well-being. The fleet is on 24-hour surveillance.

Every vehicle is fully equipped with a reliable driver, tracker system and cameras to identify movement, route, speed and stops at all times. All this information ensures that our fleet controllers know exactly where each vehicle is and to prevent or anticipate any potential problems.

We make use of reliable clearing agents to supply, the necessary and correct cross border documentation to prevent any delays or difficulties while crossing the borders.

Our clients benefit substantially from the transference of assets, skills, knowledge, and experience within the company.

The option of combining the movement of freight by road and rail from South Africa to numerous destinations in the Southern African region allows our clients an innovative and efficient alternative and, together with the option of cargo consolidations, particularly in respect of smaller consignments, means that all positions are covered.

WHY CHOOSE US

Certified Hazardous Cargo Transportation

Fully SQAS-accredited by the Occupational Health and Safety Department, we specialise in the safe transport and risk management of hazardous materials, adhering to the highest safety and compliance standards.

Warehousing Solutions

We provide secure warehousing primarily for consolidated shipments into Zimbabwe, ensuring efficient storage and distribution.

Specialised Transportation

Our expanding fleet includes step deck and abnormal trailers for heavy machinery and oversized loads. We also offer flat deck options, including Tri-axles in various lengths and Super-links (6/12m configurations), all equipped with air-ride suspension for smoother, safer transport than traditional spring suspensions.

In-House Clearing Services

As a registered South African clearing agent, TAC handles all import and export customs clearance in and out of South Africa. Our expert team manages bonded entries and documentation, while our Zimbabwe-based clearing agent specialises in consolidated imports and road/air freight clearance.

24/7 Control Room & Real-Time Tracking

Every vehicle is fitted with live tracking systems, monitored 24/7 by our dedicated control room. This guarantees full cargo visibility, security, and timely updates for customers and management alike.

Proactive Operations Team

Our highly trained operations team resolves issues swiftly and undergoes ongoing training to enhance performance, ensuring exceptional service delivery and customer satisfaction.

Driver Training

We invest in continuous driver development, covering road safety, load security, health & safety protocols, and customer service excellence.
